

Delivering quality solutions and services
to South Australian businesses with
honesty and integrity

We build solid, honest and respectful relationships with our clients, always looking to introduce new services and deliver a full range of products and solutions in a fast, personal and effective manner that will enhance your business.

ADELAIDE'S COMMUNICATIONS SPECIALIST

AVD Communications is Adelaide's Communication Specialist, providing whole of business communication solutions with a single point of contact for your telecommunications, wireless, mobility and IT requirements.

South Australian owned and operated, AVD Communications is your experienced provider of whole of business communication solutions. We understand how interconnected your telecommunications and IT are and it is our goal to continually work with and in your business to implement the best tools for improving connectivity and increasing productivity. With expertise in telecommunications hardware and software, wireless technologies, mobility, IT, applications, digital advertising and conferencing, our ability to provide our customers with a single point of contact is

invaluable for clients who just want to get on with doing what they do best; running their business!

Critically, at AVD we pride ourselves on building long-term relationships with our clients and do this by consistently providing honest solutions that are best suited to the individual needs of your business. So, unlike many competitors in the market, we'll never try to sell you something you don't need.

As a Telstra Business Partner, AVD is able to offer our customers all

the products and plans that you'd expect from Australia's largest and best telecommunications network. Whether it be fixed lines, mobility, internet services or applications, AVD is equipped with a full suite of products that can be customised to suit your business needs. What stands AVD apart however, is the high level of personalised support our customers receive both during and after implementation of Telstra services. A service that can only truly be offered by a local business that understands your needs!

We would like to express our appreciation for the outstanding service we receive from AVD Communications. The swift appraisal of what our company needed for communications, the setting up of our telephone system and incredible speed of organising our mobiles, handsets, mobile broadbands, Wi-Fi etc was amazing. AVD Communications have been our Telstra provider for over 4 years and we still receive the same dedicated service we received from day one. Few companies today offer ongoing commitment to customer satisfaction.

Robert Pike – Pike Constructions Pty Ltd

AVD provide a professional service delivered by friendly and helpful staff. They are always willing to help and take the time to find the best solution that suits your business.

Karen Housden – Wayne Phillis Ford Pty Ltd

Complimentary Phone Account Analysis and Advice

Headsets

Digital Advertising Music on Hold

Video Conferencing

Wi-Fi Solutions

Telecommunications in a hospital is a critical lifeline, which AVD understood from the outset. Their guidance and support in transitioning to a new phone service was first class. AVD sourced the best possible package for us that effectively sees us save money recurrently but with a system that is able to grow and adopt as we do. The readily available administrative and tech support and clear implementation plan was a benefit, however in my experience it is the aftercare service that sets AVD apart from its competitors and therefore a service I highly recommend to anyone considering updating their telecommunications system.

Scott Williams – North Eastern Community Hospital

AVD have helped us with all our communications needs for more than 10 years. There is nothing that they have not been able to help us through, quickly and effectively. From setting up our communications in our new showroom 8 years ago, to the new services we have required and routine maintenance, they offer a service I would recommend to all.

Heather Collinson – CFE Commercial Food and Equipment

**Considering purchasing a new telephone system?
Do you have a Telstra Business System quote?**

AVD guarantee to beat any comparable Telstra Business System price, ensuring your monthly commitment is lower.
